

ANINDO PAUL

About Me

I am a passionate and motivated Computer Science and Engineering student with a strong interest in programming, software development, and artificial intelligence. I enjoy learning new technologies, solving problems, and improving my technical skills through academic projects and self-study. I am a quick learner, hardworking, and always eager to take on new challenges that help me grow both personally and professionally. I believe in teamwork, continuous learning, and maintaining a positive attitude while working on projects. My goal is to build a successful career in the technology field by gaining practical experience, developing innovative solutions, and contributing to meaningful projects.
